Leading Solutions Provider in Electronic Industries

Intercode Technologies

Your Integrative Solutions Provider

Since 1999

Telecommunication

Automotive

Power Sector

Industrial Sector

Medical Equipments

Consumer Electronics

Intercode Technologies partner with premier technology suppliers from the world over to bring together the innovative technologies and capabilities to deliver new solutions in the marketplace.

Company Profile

Established in 1999, Intercode technologies specialize in the distribution of Electronic Components . With our broad network of Electronic Component suppliers, we offer an additional service to support extensive source and International procurement for our valuable customers. We position ourselves as a procurement agent and distributor to purchase electronic components from preferred suppliers, for and on behalf of our customers.

Intercode technologies headquartered in Mumbai, has its branch in Pune, Delhi, and Bangalore with warehouse and office in Hongkong. We have Business Alliances in Asia, Europe and also in USA facilitated by our Global delivery model, which helps in providing best quality products & targeted services to our esteemed customers at competitive prices in best possible lead time.

At Intercode Technologies, we make it easier for you by being a single source for your spot buy, scheduled lead time, as well as hard to find parts. We are catering to a wide range of business sectors including Industrial, Telecommunications, Medical, Consumer Electronics, Automobile and Power Sector amongst others.

Vision: To be recognized as a Global leader providing world-class Electronic Solutions services to its Customers.

Mission: To provide our customers comprehensive value-added services for Electronic Solutions giving them a competitive advantage in time to market, technology, flexibility and total cost.
